ISOPURE®

WITH 50 GRAMS OF PROTEIN FROM 100% WHEY PROTEIN ISOLATE

Nature's Best® PERFECT® NATURAL ISOPURE® contains 50 grams of 100% Whey Protein Isolate. Any and all impurities typically found in most whey proteins have been removed to provide you with a great tasting, lactose free, state of the art low carbohydrate protein supplement. Natural Isopure is sweetened naturally with cane sugar & Luo Han and has no artificial colors, flavors, preservatives or sweeteners. And Natural Isopure uses only all natural vitamins and minerals.

Nature's Best set out to create a product that didn't hide anything from its customers. We wanted you to know that you're purchasing the best product available on the market. Our protein source is clearly identified as 100% Pure Whey Protein Isolate. We didn't try to confuse you by listing a protein blend that doesn't tell you how much of the product is superior whey protein isolate and how much is whey protein concentrate or sweet whey or some other inferior protein source.

Furthermore, NATURAL ISOPURE is instantized so it can be taken anywhere and mixed with a spoon.

NATURAL ISOPURE's Major Proteins Include:

Beta-lactoglobulin	55 - 60%
Alpha-lactalbumin	19 - 23%
Immunoglobulin	9 - 10%
Bovine Serum Albumin	6 - 8%
Lactoferrin	.5 - 1%

In addition, NATURAL ISOPURE is rich in branched chain amino acids and glutamine.

Each Serving of NATURAL ISOPURE Contains:

3400mg of isoleucine
7800mg of leucine
3080mg of valine
4.6g of L-Glutamine

Athletes tend to need more protein than sedentary individuals to achieve positive nitrogen balance. Most recommendations range from 1.3 - 2.0 grams of protein per kilogram of body weight per day. Isopure will help you achieve the positive nitrogen state you are seeking.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

It's So Pure The Protein Dissolves Clear.

In addition to dissolving clear, Isopure protein is also light and easy to drink. The protein used in PERFECT NATURAL ISOPURE doesn't have the properties typically associated with a milk protein. It doesn't look, smell or taste like milk. We isolated the whey protein molecules and eliminated the impurities to provide you with the purest product of its kind.

You'll note when you mix NATURAL ISOPURE powder the results are cloudy. This is due to the addition of valuable vitamins, minerals and flavorings. However, the proof is in our 30oz ready-to-drink Zero Carb ISOPURE bottles. Please check out our selection of assorted flavors. The protein dissolves so clear you can see right through the bottle.
