

GROUNDBREAKING RESEARCH: THE UNIVERSITY OF TAMPA HUMAN PERFORMANCE LABORATORY

Bodybuilding's premier and trusted test booster is now even stronger! New groundbreaking research at the University of Tampa Human Performance Laboratory shows that Clinical Strength T-BOMB II not only increases total testosterone, it resulted in 32% greater bioactive free testosterone in just six weeks without increasing estrogen levels.* Researchers gave T-BOMB II to athletes training upwards of 10 times per week for six weeks. The workout conditions were so intense that the control athletes who did not take T-BOMB II actually decreased free testosterone and lost lean body mass. But the athletes using T-BOMB II daily experienced elevated testosterone, increased free testosterone and an improved testosterone-to-estrogen ratio!*

Clinical Strength T-BOMB II uses potent doses of powerful herbal extracts, an advanced five-phase hormone optimizing technology and a 2nd Messenger Complex to help increase testosterone levels while inhibiting the conversion of testosterone to estrogen, blocking estrogen receptors and reducing the production of DHT – to help enhance muscle building and male performance.*

**BODYBUILDING'S PREMIER AND TRUSTED
TEST BOOSTER IS NOW 20% MORE POTENT!**

WARNING: Consult with your physician before using this product. Do not take this product if you have a medical condition including, but not limited to, diabetes, heart disease, psychological disorders, prostate hypertrophy or hormonal abnormalities. Consult with your physician if you are taking antidepressants, MAO inhibitors or other prescription drugs. This product should not be used by women or males under the age of 18. Not intended for use by pregnant or lactating women.

* Results based on use of Clinical Strength T-BOMB II versus Placebo. Sharp, M., et al., "Effects of T-BOMB II on Hormone Profiles in Resistance Trained Men," 2014, submitted for publication.

INCREASED FREE TESTOSTERONE**

Figure A illustrates what happens to 98% of your testosterone when it reaches the bloodstream. SHBG (sex hormone-binding globulin) attacks your testosterone and kills it.*

Figure B illustrates T-BOMB II's powerful ability to keep your testosterone "FREE" by preventing SHBG (sex hormone-binding globulin) from attaching to it. T-BOMB II helps maximize the amount of "free testosterone" that your body can use to help trigger an anabolic (muscle building) reaction.*

TWO-STAGE ESTROGEN BLOCKER**

Figure A: T-BOMB II helps block the conversion of testosterone to the female hormone estrogen by providing your body with the critical nutrients necessary to hinder this conversion.*

Figure B: T-BOMB II contains compounds that fill up and block the estrogen receptors in your body. By doing so, the blocked estrogen cannot be absorbed.*

2nd MESSENGER AMPLIFIER*

Figure A illustrates what typically happens when testosterone reaches your muscle cell receptors. A weak signal and reaction minimizes testosterone's effects.*

Figure B: T-BOMB II's exclusive 2nd Messenger complex takes testosterone to the next level by magnifying the testosterone signal in your muscle cells. This powerful signal forces an unprecedented anabolic (muscle building) reaction.*

T = Testosterone E = Estrogen EB = Estrogen Blocker

3XTREME**

FIVE-PHASE HORMONE OPTIMIZING COMPLEX

**32% Greater Bioactive Free Testosterone
Without Increasing Estrogen****

Dietary Supplement

168 Tablets

Directions: As a dietary supplement, take 3 tablets in the morning and 3 tablets in the evening.

Supplement Facts

Serving Size: 3 Tablets
Serving Per Container: 66

	Amount Per Serving	% Daily Value
Magnesium (as magnesium oxide)	15 mg	4%
Zinc (as zinc sulfate)	25 mg	167%
Copper (as copper gluconate)	2 mg	100%

Optimize-5™

Five-Phase Hormone Optimizing Blend: 1084 mg 1
Tribulus terrestris (15% protodioscin, 60% saponins) (whole plant), fenugreek seed extract (50% saponins), chrysin, red clover extract (8% isoflavones) (aerial parts), kudzu root (Pueraria lobata) extract (40% isoflavones), zinc sulfate, long jack 20:1 extract (root) (Eurycoma longifolia Jack), copper gluconate, DIM (dihydroquercetin), Avena sativa 10:1 extract (aerial parts), beta sitosterol, stinging nettle leaf 4:1 extract, saw palmetto berry extract (25% total sterols and free fatty acids) and Bioperine® (black pepper fruit extract).

2nd Messenger™ Hormone Amplifier: 625 mg 4
Receptor Signal Transduction Blend:
Flaxseed (bifid acid profile (linolenic 6%, linoleic 2.5%, oleic 2.5%), stearic acid, glycine, magnesium oxide, L-arginine (as HCl), dipotassium phosphate, DL-malic acid, L-methionine, cordyceps extract (fungi) (Cordyceps sinensis) and nicotinamide adenine dinucleotide reduced form disodium (NADH).

* Daily Value not established.

Other ingredients: Dicalcium phosphate, microcrystalline cellulose, white film coat ingredients (hypromellose, hydroxypropyl cellulose, polyethylene glycol, propylene glycol and titanium dioxide), croscarmellose sodium, stearic acid, magnesium stearate and silica.
