SERVINGS

1
SCOOP

PRE
WORKOUT

DIRECTIONS:

As a dietary supplement for adults, mix one serving (1 Scoop) with 6 to 8 ounces of water. Best when used on an empty stomach approximately 15 to 30 minutes prior to training. Assess tolerance before switching to two servings (2 Scoops). Do not exceed recommended serving. To avoid sleeplessness, do not take within 4 hours of bedtime.

WARNING:

Seek advice from a physician before consuming this product. Do not use if you are contemplating pregnancy, pregnant, nursing, prone to dehydration, or exposed to excessive heat. Reduce or discontinue use of this product if sleeplessness, tremors, dizziness, nervousness, headaches, or heart palpitations occur. This product is only intended for use by healthy adults 18 years of age or older. Discontinue use two weeks prior to surgery. Keep out of reach of children and pets. Store in a cool dry place away from direct sunlight.

Consumer is responsible and assumes all risks, liabilities, and consequences related to the use of this product, including compliance with the rules and regulations of all governing bodies or other entities having jurisdiction over any sport or athletic activity in which he/she participates, as well as any career regulations.

Caffeine warning: The recommended serving of this product contains approximately as much caffeine as two cups of coffee. Do not consume caffeine, or combine with synephrine, including but not limited to coffee, tea, soda and other dietary supplements or medications containing phenylephrine or caffeine. Too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally rapid heartbeat. Discontinue use if you experience dizziness, severe headache, rapid heartbeat or shortness of breath.
