

GET HUGE FAST

BIO-ENGINEERED FOR FAST ABSORPTION AND MAXIMUM ANABOLIC EFFECTS*

H.U.G.E. MASS is the most advanced weight gainer ever created! This calorie-dense formula is loaded with highly anabolic protein, carbohydrates and fat in a precise anabolic ratio with a scientifically advanced enzyme system for fast digestion and optimum assimilation. H.U.G.E. MASS is packed with a massive 50 grams of supreme quality whey protein, carbohydrates and critical MCTs to feed your muscles and fuel high-intensity iron pumping workouts.*

After countless hours of scientific study within the Human Underground Growth Experiment initiative, the Xero Limits research staff has successfully combined the two primary components of massive weight gain – high caloric intake and perfect digestion – into one revolutionary supplement. Increasing caloric intake is critical to making gains in body weight and muscle mass, but without complete digestion and assimilation of these required macronutrients, you won't get the fullest anabolic benefit. To overcome this drawback found in other weight gainer products, Xero Limits scientists engineered a proprietary digestive enzyme system called Tri-Anabol-Peptase to provide the precise amount of specific enzymes to quickly and completely digest the protein, carbs and fats in each serving of this powerful mass builder. Tri-Anabol-Peptase is designed to ensure fast and optimal digestion and improve bio-availability for peak anabolic nourishment to your muscles. Furthermore, this bio-engineered enzyme complex will eliminate the common stomach distress and bloating caused by other weight gainer formulas.*

H.U.G.E. MASS provides 675 calories in a single serving, 50 grams of highly anabolic whey protein, MCTs for protein-sparing energy production and both simple and complex carbohydrates to spike insulin and replenish muscle glycogen stores to support extreme mass gains. H.U.G.E. MASS delivers critical muscle-building calories in the perfect anabolic ratio with enzyme enhanced superior bio-efficiency for fast uptake and absorption. Within minutes of drinking H.U.G.E. MASS, your body will undergo a powerful synchronized anabolic infusion of elevated insulin, increased glycogen transport and enhanced amino acid uptake to stimulate muscle growth and pack on the mass. Pound down 1 to 3 of these delicious shakes a day and you will quickly be on your way to getting HUGE.*

TAP into the Muscle-Building Power of H.U.G.E. MASS

Tri-Anabol-Peptase (TAP) is a superior enzyme complex composed of three specific enzyme matrices: Amino-Peptase to digest proteins, Gluco-Peptase to digest carbohydrates and Lipo-Peptase to emulsify and digest fats for optimal anabolic nourishment.

Amino-Peptase: Precisely Engineered to Digest the 50 Grams of Whey Protein in H.U.G.E. MASS

**Protease 3.0
Protease 4.5** pH optimized protein digesting enzymes that work in low to high pH ranges found in the upper part of the gastro-intestinal tract (stomach and upper small intestine) to quickly speed digestion.

Gluco-Peptase: Precisely Engineered to Digest 85 Grams and Sources of Carbs in H.U.G.E. MASS

**Alpha-Amylase
Gluco-Amylase** Primary digestive enzymes for breaking apart bonds of large carbohydrate molecules, such as maltodextrin. These enzymes break large carbohydrates into maltose (a glucose-glucose bonded simple carbohydrate).

Maltase Breaks the Maltose (glucose-glucose) bond into glucose.

Lactase Breaks the Lactose (glucose-galactose) bond into glucose and galactose.

Invertase Breaks the Sucrose (glucose-fructose) bond in the corn syrup solids into glucose and fructose.

Lipo-Peptase: Precisely Engineered to Digest and Emulsify the 15 Grams of Fats in H.U.G.E. MASS

Lecithin Emulsifies fats to optimize digestion and absorption.

Lipase Breaks down fats and triglycerides into free fatty acids.

GET HUGE FAST WITH H.U.G.E. MASS!

H.U.G.E. MASS

THE WORLD'S FASTEST ACTING
MOST BIO-AVAILABLE WEIGHT GAINER*50 GRAMS
ALL WHEY
PROTEINVANILLA
CREME

- Super-Fast Gains in Weight, Size and Strength*
- Increases Protein Synthesis and Spikes Insulin for Extreme Muscle Gains*
- Exclusive Anabolic Enzyme Blend for Fast Digestion and Optimal Bio-Availability*
- Loaded with BCAAs

Directions: Mix 3 scoops in a blender or shaker bottle with 16-20 fl. oz. of water. Tri-Anabol-Peptase starts to work immediately when exposed to liquid. For best results, drink H.U.G.E. MASS within 10 minutes of mixing.

Other Ingredients: Fast Release Ultra Bio-Available Premium Whey Protein Concentrate and BCAA Complex (Whey protein concentrate, L-leucine, L-isoleucine, L-valine), Fast Release Carbohydrate Complex (maltodextrin, corn syrup solids, dextrose), Concentrated MCT and Lipid Complex (coconut oil, mono and diglycerides, sunflower lecithin), sodium caseinate, natural and artificial flavors, dipotassium phosphate, sodium silico aluminate, acesulfame potassium and sucralose.

Contains: Milk.

MAXIMIZE YOUR
MASS-BUILDING PROGRAM!

ENGORGE

THE ANTI-DIET PILL!

If you're not as big as you want to be, chances are you're not eating enough! To maximize your mass-building program, stack H.U.G.E. MASS shakes with ENGORGE. This revolutionary appetite-stimulating complex has been formulated with an advanced Force Feed Technology to help you pack in all the muscle-building food you need to get big. To activate an insatiable appetite of massive proportions, ENGORGE stimulates hunger with its exclusive Ghreloptide™. ENGORGE's MacroMore™ Gastric Expanding Complex increases stomach volume and filling capacity so you can pack in more food than ever before. To improve the digestion and enhance the nutritional uptake of large meals, ENGORGE's specially formulated digestive enzyme complex Anabolize™ speeds stomach emptying so you're ready to scarf down your next meal and continue the force feeding required for massive growth!

ENGORGE TO LIVE EXTRA-LARGE!

- Keep out of reach of children
- Store at 15°-30° C (59°-86° F).
- Protect from heat, light and moisture.
- Do not purchase if seal is broken.
