DO NOT USE BUILD-HD™ without first consulting your physician.

BUILD-HD™ is a Smart-based, Creatine enhanced powder formula aimed at increasing anabolic activity.[†] This strong, concentrated formula utilizes NMDA-receptor activator, Aspartic Acid, in the L-isomer form (which is the only form directly incorporated as a proteinogenic building block of protein) ... L-Carnitine (as the bio-active Acetyl form which is reported to cross the blood-barrier) and Ubiquinone (the energy carrier antioxidant form of CoQ10), as a direct means of promoting cellular activity, metabolism, and transport ... as well as both Glycerylphosphorylcholine and Phosphatidylcholine, for delivery of Choline to the brain (to support up-regulation of Acetylcholine, the neurotransmitter acting in both the PNS and CNS).[†] BUILD-HD™ is the only BPI Sports anabolic formula of this nature.[†] BUILD-HD™ is a must have if you are looking to promote a stronger, bigger, and better looking physique.[†]
