These POWERFUL Stacks when used together are designed to help promote the ultimate Anabolic physique.*

STACKING PROTOCOL	PRE-WORKOUT	POST-WORKOUT	NON-WORKOUT DAYS	MORNING	AFTERNOON
BETA ALKALINE™	✓x1 30 MIN PRIOR			✓x1	
CREATINE ALKALINE™	✓x2 2 HOURS	✓x2 IMMEDIATELY AFTER			✓x2
GLUTA ALKALINE™	✓x1	✓x1		✓x1	
LEUCINE ACGM™	✓x1	✓x1		✓x1	

WORKOUT DAYS

Creatine Alkaline™ is Creatine Monohydrate and Creatine HCl. Creatine Monohydrate is the most heavily researched and trusted form of creatine, backed by hundreds of studies. So how can you make something great even better? The minds behind BPI Sports have tackled this sports nutrition dilemma head-on with the development of pH-Sorb™, a unique pH Buffering Technology. It's understood that once creatine monohydrate hits the stomach it can become unstable and can break down into creatinine, a potentially dangerous byproduct. It's believed that this unwanted breakdown is accelerated through lower pH levels. **pH-Sorb™** is designed to work by helping balance pH levels at closer to neutral, which may in turn stop the unwanted conversion to creatinine, and enhance overall creatine absorption. The scientists at BPI didn't stop there, though. Creatine monohydrate may be King, but there's a new '800 pound gorilla' in the room and it's called Creatine HCl. Many are saying that it's an unbelievable achievement of Muscle Building Architecture. The combination of these two muscle building powerhouses may make for an unrivaled formula and unmatched results.*†

Please read entire label before use.

Suggested Use: Take one (1) serving daily, before and/or after training, or as directed by a qualified healthcare practitioner. Can be taken with or without food.

Warnings: Not intended for use by persons under age 18. Do not exceed recommended dose. Get the consent of a licensed physician before using this product, especially if you are taking medication, have a medical condition, you are pregnant, nursing or thinking about becoming pregnant. **KEEP THIS PRODUCT AND ALL SUPPLEMENTS OUT OF THE REACH OF CHILDREN.**

Supplement Facts

Serving Size 2 Capsules
Servings Per Container 60

Amount Per Serving	% Daily Value
Creatine (as pH-Sorb™ Buffering Technology Creatine monohydrate and creatine HCl; Patent-Pending)	1.5 g **

** Daily Value not established.

Other Ingredients: pH-Sorb™ Buffering Technology (magnesium citrate, calcium citrate, sodium citrate, potassium citrate, stearic acid, potassium hydroxide, carboxymethylcellulose sodium, croscopolone, fatty acids, natural wax), magnesium stearate, silica, dicalcium phosphate, FD&C Blue No. 1, and titanium dioxide.

*When combined with a proper exercise and nutrition regimen. Statements based on early-stage independent 3rd party in vivo and/or in vitro model scientific research data findings for individual ingredients.

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.
