

### Optimal Vitamin D<sub>3</sub> Protection in a Delicious, Sour Lemon Gummy

Vitamin D is often referred to as "the sunshine vitamin" because we can synthesize it with exposure to sunlight. However, sunscreen use, environmental factors, age and diet may contribute to vitamin D deficiencies. In addition, current scientific research reveals significant health benefits from higher, optimal potencies. Vitamin D<sub>3</sub> is the proven, most effective form of vitamin D.

**Optimal daily dose of 1,000 IU Vitamin D<sub>3</sub>** in each delicious gummy supports enhanced immune function, cardiovascular, colon and breast health, promotes calcium absorption, protects bone strength and strengthens nerves and muscles surrounding bones.\*

**100% Natural and Gluten-Free** with natural sour lemon flavor and organic cane sugar for a great tasting way to supplement your diet.

**SUGGESTED USAGE:** For daily protection take one gummy per day, with or between meals.
