

PEAK PERFORMANCE, EVERYWHERE.

PERFORMIX SUPER T is a precise and powerful blend of 10 cutting edge ingredients designed to help naturally support healthy testosterone activity levels.^{1a} Optimizing free testosterone has been suggested to increase strength, endurance, intensity and sexual health.^{1a} **PERFORMIX SUPER T** has been designed exclusively for males over the age of 18 featuring one of the highest ultra powerful protodioscin contents available.¹

Using **TERRA** Intelligent Dosing™ technology, an innovative Multi-Coating Matrix (MCM), combined with a pH-phased, delayed release functionality, **PERFORMIX SUPER T** delivers premium ingredients via multiple targeted release points to help offer a sustained release profile along with improved delivery.¹

POWERED BY:

PERFORMIX SUPER T contains the novel ingredient **Furosap**® made with patented technology to help naturally support healthy testosterone levels.¹ Combined with **Testafuranol**™, Anti-Aromatase Optimizers, plus a powerful Bio-Enhancer, it creates a powerful combination of premium ingredients that will take your workout to a whole new level.^{1a}

Furosap® uses a novel and patented process for the extraction of bioactive, high-purity furostanolic saponins, particularly protodioscin from Fenugreek. **Furosap**® contains more protodioscin than other Fenugreek products on the market.^{1a}

Testafuranol™ is a unique extract from the plant *Tribulus alatus*, which contains a high concentration of saponins.^{1†} The particular compounds contained within **Testafuranol**™ may help naturally support healthy testosterone levels.^{1†}

ZX3™ is a synergistic matrix of Zinc Arginate Chelate, Zinc Citrate and Zinc Monomethionine. Zinc is a trace mineral required for numerous aspects of cellular functions, including protein synthesis as well as sexual health.¹

Testafuranol™ **BIOPERINE**®

^a When used in conjunction with a regular exercise program.

^a Based on emerging preliminary experimental research for Testafuranol™ and Furosap®.

^a US 20120295857 A1 - Extract obtained by a commercially viable process for the extraction of furostanolic saponins from fenugreek seeds, in which one of the compounds in the extract is protodioscin.
