

World Nutrition's hybrid formula combines systemic and digestive delivery to provide total system support.†

As we age, our body's natural production of enzymes decreases.† Enzymes are the biological building blocks that make all functions of life possible. They are responsible for initiating millions of reactions in our body, thus without enzymes, life could not exist.

Supplementation with Vitälzým along with proper diet and exercise may help balance your body's repair mechanisms.†

Vitälzým is lactose free and contains no animal derivatives, artificial flavors or colors, yeast, gluten, or talc.
