

Vitälzým Digest is a blend of powerful enzymes specifically formulated to assist the body's normal metabolic processes by improving both digestive function and nutrient absorption. †

Our digestive enzymes are a naturally-derived, drug-free alternative to harsh prescription medications, and act as catalysts to boost the breakdown of complex proteins, fats, and carbohydrates. Vitälzým Digest facilitates this process and the absorption of nutrients as a healthy source of energy. †

The body naturally produces sufficient enzymes to maintain optimal health. However, as one ages, the body's production of enzymes decreases, which may reduce the efficiency of normal body functions. Vitälzým Digest was designed to support the body in optimizing the availability of these core functions. †

Vitälzým Digest contains no animal derivatives, artificial flavors or colors, yeast, gluten, or talc and is lactose free.

Warning: If you are pregnant, lactating, do not take this product without direction or supervision from your medical provider.
