PROD. NO. 881

Gestazyme tablets are specially constructed to release pepsin, papain, amylase and betaine hydrochloride in the digestive system where these factors are most active. The betaine hydrochloride provides hydrochloric acid supplementation to ordinary gastric secretions. Pancreatin (for protein, fats and starches) and ox bile extract (for fat digestion) support digestion in the small intestine.**

DIRECTIONS: For occasional use as a digestive aid, adults, take two (2) tablets with meals. Swallow whole. Do not crush or chew.

WARNING: If you are pregnant, nursing or taking any medications, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Keep out of reach of children. Store in a dry place and avoid excessive heat. Tamper Resistant: Do not use if seal under cap is broken or missing.
