CM750™ Creatine Caps from AST Sports Science delivers you an advanced micronized creatine formula in ultra-convenient, easy to take capsules. Creatine, a nitrogenous organic acid, is a component of skeletal muscle tissue and is phosphorylated to store energy used for muscular contraction. Creatine monohydrate has been shown in hundreds of scientific studies to help increase muscle size, strength and endurance.

CM750™ Creatine Caps allows you to get the power of research-proven muscle-building effects of micronized creatine without the inconvenience and time consuming task of mixing up a drink. Just take a few capsules at your convenience, quickly and easily, for powerful muscle-building effects. AST Sports Science brings you the purest, highest quality creatine in an advanced encapsulated micronized formula for pure muscle building power.
