RAW Cleanse™ - The Ultimate Standard in Cleansing and Detoxification

1 **RAW Cleanse™ Toxin Defense - Optimal Oral Health and Immune System Support†**

Toxin Defense is the first step in the **RAW Cleanse™** experience, supporting optimal oral health and overall immune system function.† **Toxin Defense** contains a unique combination of **oral and intestinal probiotics** that work in the mouth to help inhibit harmful toxins from traveling further in the body.† This "point-of-entry" defense contributes to overall immune function and promotes microbial balance in the gastrointestinal tract for proper digestion and elimination.† The clinically studied intestinal probiotic contained in **Toxin Defense** helps to support healthy bowel function, elimination and a healthy gut-associated immune system.†

2 **RAW Cleanse™ Organ Detox - Natural Detoxification of Organs and GI Tract†**

Organ Detox is the second step in the **RAW Cleanse™** experience, supporting normal removal of environmental toxins and pollutants from the body, as well as internally generated waste by-products.† **Organ Detox** is formulated with RAW milk thistle, **RAW Food-Created glutathione, cysteine, glycine, glutamic acid, melon juice concentrate, a rich source of Superoxide Dismutase (SOD) and catalase, plus vitamin U.** This antioxidant, enzyme and amino acid rich formula supports healthy liver biotransformation and excretion of environmental toxins (and their metabolites) normally introduced into the body in small amounts.†

3 **RAW Cleanse™ Digestion & Elimination - Toxin Capture and Removal†**

Digestion & Elimination is the third and final step in the **RAW Cleanse™** experience, helping to catch and hold undesirable compounds in the digestive tract and facilitate final transport from the body.† **Digestion & Elimination** contains 800mg of **RAW Food-Chelated magnesium** to draw water into the colon for effective movement of intestinal bulk.† RAW organic flax and chia seed act as bulking fibers to absorb toxins and pollutants while RAW organic coconut fiber facilitates intestinal flow and creates a positive microbial balance in the body.†
