SUGGESTED USAGE: Take 1 capsule daily.
When life is challenging, the adrenal glands have to work harder to help the body meet increased metabolic demands and support the fight or flight response. This process can also deplete essential nutrients necessary to maintain optimal adrenal function and antioxidant status. B-50 is a targeted combination of Vitamins B6, B12, Pantothenic Acid, Folic Acid and Vitamin C at levels necessary to replenish and maintain optimal B Vitamin and antioxidant status during these challenging times.* This formula provides recommended potencies of the most important B Vitamins and Vitamin C, and is formulated to supply the body's daily needs in one complete supplement.

B-50

Complex with C
