PROD. NO. 4390

Discover the best that Mother Nature has to offer with Bee Pollen Complex. It contains all of the goodness of Bee Pollen plus the beneficial properties of Bee Propolis and Royal Jelly. Bee Propolis is a by-product of Royal Jelly, the highly complex substance fed to queen bees. This superfood is a naturally rich source of bioflavonoids and includes trace vitamins, minerals, amino acids, proteins and carbohydrates. As a dietary supplement, Bee Pollen Complex supplies all three of the rare nutritional substances derived from bees in one convenient high-strength complex.

Directions: For adults, take one (1) tablet one or two times daily, preferably with meals.
