

Beta-carotene is referred to as Pro-Vitamin A because it is converted into Vitamin A as the body requires it. This phytonutrient is a powerful antioxidant. Additionally, it is essential for healthy vision, heart, skin and hair health, and maintenance of a healthy immune system. This formulation utilizes 100% natural oceanic beta-carotene derived from the algae *D. salina*, including several other naturally occurring carotenoids. It is offered in oil-based softgels to promote optimal absorption and assimilation.*
