

More than just ordinary soy protein, Solgar's **ISO-SOY®** is a scientifically-advanced soy protein formula providing a wide array of soy isoflavones, including the most well known and studied, **Genistein and Daidzein**. A large amount of research has been published extolling the extraordinary health benefits attributed to these constituents of soy protein. Soy isoflavones are excellent examples from the emerging phytonutrient category which has garnered extensive support in recent scientific literature. **ISO-SOY®** Soy Protein/Isoflavone Concentrated Powder is an excellent way to obtain these important phytonutrients.
