

Vitamin C is an essential, water-soluble vitamin which must be obtained through diet or supplementation. It is one of the most potent antioxidant nutrients and plays an essential role in the functioning of white blood cells, which are vital components of the immune system. Additionally, it aids in collagen (connective tissue) formation, which is important for healthy nails, skin, hair and joints. Vitamin C promotes respiratory and circulatory health and is beneficial for healthy gums. This formulation provides pure Vitamin C along with Rose Hips fruit.*
