

Ginza-Plus® combines five of the most highly prized adaptogens in the world.* Russian scientists coined the term "adaptogen" to describe a special group of botanicals that increase the body's resistance to physical, mental and environmental stressors. Adaptogens have a broad influence on the entire body and, among their many properties, have the capacity to balance body functions and support body systems affected by stress.

The key ingredient in Ginza-Plus® is a highly concentrated extract of ginseng root. Ginseng is traditionally used as a revitalizing tonic for the body and is one of the very best botanicals for increasing feelings of energy and improving mental and physical performance overall, especially under stressful conditions.*

Ginza-Plus® is specially designed to promote general health and well-being, and is especially suited for individuals who feel depleted due to overwork, excess stress and inadequate rest.* It can be used daily for overall support or as needed during times of stress.*

What makes us different:

Liquid Soft-Gels - The nutrients in these easy-to-swallow Liquid Soft-Gels are released fast. Other forms of delivery can contain binders and fillers that may cause stomach upset and offer no nutritional
