

Consumption of omega-3 fatty acids may reduce the risk of coronary heart disease. FDA evaluated the data and determined that although there is scientific evidence supporting the claim, the evidence is not conclusive. Omega-3 fatty acids also help maintain triglyceride levels. EPA and DHA are key omega-3s important for heart health.†

- Purified to remove mercury
- Pharmacist recommended‡
- No artificial colors or flavors, preservatives, yeast, starch or gluten

†This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
‡Based on Pharmacy Times survey.

Take 1 softgels daily with a meal. Keep bottle tightly closed. Store in a cool, dry place, out of reach of children.
