POWERED

HONEYBEE ALLIANCE

We created EnerBee with two goals in mind: To help save the honey bees and to give people a great tasting and healthy way to satisfy their energy needs.

Honey bees pollinate one-third of all the food we eat (apples, cherries, almonds, etc.), but our energetic allies are in danger due to Colony Collapse Disorder.

EnerBee is donating a portion of sales to help fight the CCD battle.

Visit enerbee.com to learn more about honey bees, our journey, and The HoneyBee Alliance.
