

Caralluma Fimbriata extract is derived from a cactus that grows abundantly in India where it has been consumed raw, seasoned with spices and cooked in traditional Indian dishes for centuries. Nicknamed the 'famine food,' this edible cactus was used in India during times of famine and on hunting treks for its powerful appetite-suppressing and thirst-quenching qualities

CAUTION: Do not exceed 3 servings daily. Pregnant or nursing mother, children under 18, and individuals with know medical conditions should consults with a physician before taking. Keep out reach of children. Do not use is safely seal is damaged or missing. Store in a cool, dry place.
