INGREDIENTS: Protein blend (Whey protein isolate, Micellar casein, Milk protein isolate, Egg albumin), Nondairy creamer (Sunflower oil, Corn syrup solids, Sodium caseinate, Mono- and diglycerides, Dipotassium phosphate, Tricalcium phosphate, Soy lecithin, Tocopherols), Natural and artificial flavors, Guar gum, Acesulfame potassium, Sucralose, Lecithin and Silicon dioxide.

ALLERGEN WARNING: Contains MILK, EGGS and SOY and is produced in a facility that also processes PEANUTS and WHEAT.

DIRECTIONS: Mix each scoop of Pro JYM in 6 oz. of water for best taste and texture. Consume 1 scoop within 30 minutes before workouts, and 1 scoop within 30 minutes after workouts. Also consider taking 1 scoop when you first wake up each day and before going to bed for maximizing lean muscle mass gains. You can also consume 1 scoop between regular meals.

WARNINGS: Do not use as a sole source of nutrition. Keep out of reach of children. Check with a qualified healthcare professional before taking this product if you are pregnant, nursing a baby, under 18 years of age, or if you have any known or suspected medical condition(s) and/or are taking any prescription or OTC medication(s).

MY PROMISE

My Pro JYM protein powder is made from the highest-quality sources of protein. That's why I list the precise amount of each type of protein that is in every scoop of Pro JYM. Research confirms that the best gains in lean muscle mass are achieved with a protein blend that includes a fast-digesting protein (whey protein), a moderate-digesting protein (egg protein) and a slow-digesting protein (casein protein). These are the three protein sources that make up my Pro JYM protein blend. I optimized the amount of each one to maximize my own results as well as yours.

Each scoop of Pro JYM delivers 24 grams of pure, quality protein. It's not made with cheap and inferior whey protein concentrate and/or caseinates like the majority of protein powders on the market today. Instead I used only the highest-quality whey protein isolate, micellar casein, milk protein isolate, and egg white protein (egg albumen). The 24 grams of protein in each scoop of Pro JYM contains the following:

- Whey protein isolate: 7.5g
- Micellar casein: 7g
- Milk protein isolate: 7g (5.5g casein, 1.5g whey)
- Egg albumen: 2.5g

Since milk protein isolate is 20% whey protein and 80% micellar casein, the 7 grams of milk protein isolate are composed of 1.5 grams of whey and 5.5 grams of casein. This means that each scoop contains 9 grams of whey protein, 12.5 grams of micellar casein, and 2.5 grams of egg protein.

■ WHEY PROTEIN
■ CASEIN PROTEIN
■ EGG PROTEIN

WORKS WITH BOTH...
