

Digestive Bliss Probiotic®

Nature's Secret® Digestive Bliss Probiotic® is a proprietary blend of probiotics that can help support a healthy intestinal tract.* This robust formula supplies 18 different types of "friendly" bacteria that can reside inside the intestinal tract and form part of a healthy gut flora. Maintaining an optimal balance of intestinal bacteria is vital to overall health and well-being.*

The key breakthrough of Digestive Bliss Probiotic® is its patented delivery system, which forms a protective gel barrier around the probiotic as soon as it is ingested. This barrier helps preserve the delicate probiotic organisms inside as they travel to the high acid environment of your stomach. The result? More probiotics reach the intestines alive and intact for maximum benefit.*
