

INTRA/POST RECOVERY STACK

Leucine

12:1:1

The Most Powerful Muscle Building BCAA Ratio In The World*

6.2g of Leucine: The clinically studied dose in every scoop!

Isoleucine **Valine**

The 3 BCAAs
(Branched-Chain Amino Acids)

LEUCINE
The Muscle Building Phenom
Leucine is by far the most powerful of the 3 BCAAs as it cannot convert to energy. This muscle building superstar is strictly ketogenic, so it is used to trigger muscle protein synthesis (growth).*

ISOLEUCINE
Essential Amino Acid
Isoleucine while essential, is both glucogenic and ketogenic, and can be converted to glucose for energy during your workout.*

VALINE
Essential Amino Acid
Valine while essential, is strictly glucogenic and can also be converted to glucose for energy during your workout.*

GLUTAMINE
Clinical Dose 2.5g to 5g
Glutamine makes up approximately 60% of muscle tissue. It has been shown to act as a powerful muscle cell volumizer, stimulate protein synthesis and decrease muscle protein loss.*

Other Ingredients: Citric Acid, Natural & Artificial Flavors, Sucralose, Acesulfame Potassium

ALLERGEN INFORMATION: Produced in a facility that also processes milk, tree nuts, peanuts, eggs, soy, shellfish, fish, and wheat.

Suggested Use: As a dietary supplement, mix 1 scoop with 16 oz of water and consume before, during and/or after training. BCAA Peak™ is best taken in one of two ways: 1. As a pre/intra workout drink mix. 2. Immediately after exercise and before your post workout shake (Nitro-Peak™ or Mass-Peak™). Additional servings may be used to meet your daily amino acid requirements.
