

# Citrus Bioflavonoid Caps

- With Rutin

Proudly manufactured in our NSF® GMP registered facility.

## How It Works:

Twinlab® Citrus Bioflavonoid Caps are easier to swallow and assimilate. Contains one of the purest sources of citrus bioflavonoids available. Well tolerated by most individuals. No tablet binders, coatings, or colorings used/added. No added flavorings, salt, artificial sweeteners, preservatives or salicylates.

Unlike other products, each production batch of Twinlab bioflavonoids is assayed by independent laboratories and tested by HPLC (High Pressure Liquid Chromatography) to measure and assure the true content of the individual and total bioflavonoids.

Twinlab offers bioflavonoid content concentrated from fresh lemons, oranges, grapefruits, limes and tangerines, along with some of the greatest number of individual bioflavonoids available from any manufacturer.

## Suggested Use:

Take one or two capsules daily, or as directed.

## WARNING:

If you are pregnant or nursing, taking any medication or have any medical condition, consult a health care professional before use. **KEEP OUT OF REACH OF CHILDREN.**
