

10 Strains

Probiotic 55 Billion

55 billion active cultures per capsule
to help maintain healthy gut flora*

Gluten Free • One-a-Day
• Enteric-Coated Vegetarian Capsules

DIETARY SUPPLEMENT

Probiotic 55 Billion is formulated with prebiotics (inulin) and 10 strains of viable organisms, including 30 billion *Bifidobacterium* CFUs† and 25 billion *Lactobacillus* CFUs‡, the bacteria most dominantly found in the large and small intestines.

It's well known that there are many factors that cause a decrease in intestinal flora, including age, stress, diet, and medications. Decreased intestinal flora can cause your digestive system to function incorrectly, allowing important nutrients your body needs to pass through the digestive system without being broken down and absorbed.* Therefore, taking a probiotic like **Probiotic 55 Billion** daily

can help your body maintain a healthy functioning digestive system.*

In addition, each capsule is enteric-coated to help prevent probiotics from being damaged by stomach acid, allowing them to reach the small intestine for maximum effectiveness.*

Finally, we back up this and every product we sell with our 100% money back satisfaction guarantee.
