Multi-Nate 30 DHA 275/400 mg

INDICATIONS: Multi-Nate 30 DHA 275/400 mg is a prescription regimen of prenatal multivitamin, multi-mineral and omega-3 fatty acid supplements indicated for use in improving the nutritional status of women throughout pregnancy and in the post-natal period for both lactating and non-lactating mothers. Multi-Nate 30 DHA 275/400 mg is also useful in improving the nutritional status prior to conception.

DOSAGE AND ADMINISTRATION: Before, during and after pregnancy, one tablet and one softgel capsule taken by mouth daily, or as directed by a physician. The tablet and softgel capsule may be taken together or at different times of the day. Caution should be exercised to ensure that the prescribed dose of DHA does not exceed 1 gram (1,000 mg) per day.

Consult package insert for full prescribing information.
