Probiata Critical Care contains a very high-potency 50 Billion 100% pure-strain culture LP299V® (*Lactobacillus plantarum* 299v) probiotic researched for over 25 years by Swedish doctors, microbiologists and nutritionists. Unlike other high potency probiotic products which contain mixed strains of bacteria that have not been studied at higher potencies or in combination, Probiata Critical Care contains proprietary LP299V pure strain probiotic, supported by over 75 scientific studies. Probiata Critical Care comes in an easy to swallow 100% vegetarian capsule conveniently blistered to help take to work or when you travel. This very high-potency, pure probiotic, taken once-per-day can fortify your digestive system, ease intestinal discomfort and help reduce gas, diarrhea, constipation and bloating.* Probi®, Probi-Digestis® and LP299V® are registered trademarks of Probi AB.
