

BCAA+G™ contains a precise ratio of Branched Chain Amino Acids (BCAAs) and L-Glutamine, which are clinically proven to be essential for building muscle size and strength.** **BCAA+G™** increases protein synthesis, nitrogen retention and most importantly, protects hard earned muscles from the stress of heavy training and intense exercise.** Clinical investigations have proven that the amino acids found in **BCAA+G™** help the body recover quicker after intense training and promote lean muscle gains, while reducing unwanted body fat.** Vitamin B6 has been added to enhance amino acid utilization directly into the muscle tissue.

During intense training or dieting free amino acid pools in muscle tissue decrease, drastically reducing the body's ability to build muscle. Research has indicated that BCAAs and L-Glutamine supplementation support this free amino acid pool in the muscle tissue, increasing protein synthesis and allowing the body to build lean muscle mass.** The body cannot manufacture its own BCAAs, making their importance in the diet vital for maximum muscle growth and recovery.**

BCAA+G™ is the **Ultimate Muscle Recovery** formula nutritionally engineered for today's serious athlete.

LEMONADE

NET WEIGHT: 2.2LBS (1000g)

**This statement has not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Suggested Usage: Take 3 scoops (6 grams) 2 times daily. 1 serving should be taken prior to exercise and 1 serving immediately following exercise. To maximize results, take this product with your favorite meal or supplement containing protein and carbohydrates (high glycemic) at a 1:3 ratio. **PLEASE NOTE:** BCAA+G™ does not mix well in water and must be shaken or swirled prior to each drink. It is normal for BCAA+G™ to float on top of the water. Also, BCAA+G™ can be consumed as powder directly into the mouth and chased with water.

Elite Training Athletes: To enhance muscle strength and recovery from intense training best results are seen when BCAA+G™ is used before, during and immediately following training. For example: 3 scoops prior to training, 3 scoops during training and 3 scoops after training.

Supplement Facts

Serving Size 3 scoops (6 grams)
Servings Per Container 166

Amount Per Serving	% Daily Value*	
Vitamin B6 (Pyridoxine HCl)	5g	8%
Vitamin B6 (Pyridoxine HCl)	2mg	100%
L-Leucine	2,500mg	†
L-Valine	1,500mg	†
L-Isoleucine	1,000mg	†
L-Glutamine	1,000mg	†

* Percent Daily Values are based on a 2,000 calorie diet.

† Daily Value not established.

Ingredients: BCAA Blend (L-Leucine, L-Valine, L-Isoleucine, L-Glutamine), Natural & Artificial Flavors, Citric Acid, Pyridoxine HCl & Sucralose.

Contains **NO** egg, peanut, tree nut, fish, shellfish, wheat, gluten or yeast.

This product is manufactured in a facility that produces other products and may contain trace amounts of milk or soy.
