### Ionic Minerals from Australia

## L I Q U M I N S™

The ocean supports more than 80% of all life on earth; it is the life blood of the planet. It also contains more than 90 minerals and trace elements that are essential to sustain human life.

Aussie Trace Minerals is an all natural trace mineral complex harvested from a pristine ocean source off the coast of Queensland, Australia. It contains all the minerals and trace elements your body needs for optimum health and balance.†

As the premier trace mineral company, we at Trace Minerals

Research want to provide you with all of the best ionic trace mineral complexes from around the world.
