

CoQ10

From Our Heart to Yours

L I Q U I D M I N S TM

Liquid Co-Q10 is an all-natural, enzymatic, dietary supplement providing assistance to the body's cells by helping to maintain and protect against oxidative stress for increased cell integrity and energy.†

Co-Q10 is an essential nutrient in the body that supports healthy cardiovascular function for increased energy.† It is also a highly potent anti-oxidant produced by the body that seeks out and destroys roaming free radicals to help prevent further cell damage. As you get older, your body's ability to produce this vital nutrient decreases, making supplementation essential for maintaining proper health and vitality.

This great tasting, fast-absorbing liquid gets into the system quickly and is convenient and easy to take for those who find it difficult to swallow tablets or who are tired of taking tablets.

For increased absorption, we added ConcenTrace® ionic trace minerals, which is a natural activator containing over 72 ionic trace minerals and elements found in sea water.

For over 35 years, Trace Minerals has been committed to providing the highest quality supplements to the natural products industry. If you are not satisfied with this product for any reason, we offer you a "Feel the Difference or Your Money Back" quality guarantee, one of the best guarantees in the industry.
