

Methylsulfonylmethane (MSM) is an organic source of sulfur found naturally in fruit and mother's milk. It is utilized in connective tissue formation (hair, skin, nails and lungs), the production of the antioxidant glutathione and in the detoxification process.** Sulfur is structurally and functionally important in more than 150 compounds in the body including enzymes, hormones, antibodies and free radical scavengers.**

- **Supports Immune Health****
- **Assists Joint Health****
