

#### Directions

Add one level scoop (25.5 grams) of **Natural Whey** to a 3-4 oz glass of water, milk, juice or blend with yogurt and fruit. When mixing, add liquid first, then powder and stir briskly until completely dispersed. **Low Carbohydrate Diet (Weight Management Program):** Recommended 1 scoop daily for those trying to increase their dietary protein intake while decreasing intake of carbohydrates.

#### Special Processing & Blend

**Natural Whey** provides an optimal source of whey protein by combining an ultrafiltered, low temperature processed whey protein concentrate with cross flow microfiltered whey protein isolate. These specialized processing systems ensure a High Biological Value (HBV) whey source in the form of whole proteins in their biologically active state. All Natural Whey is also remarkably high in Branched Chain Amino Acids (BCAAs), which are the most required amino acids needed to replenish muscle stores that are utilized during strenuous exercise.\*\*

#### The Next Generation Protein

The biochemists at **MRM®** have taken protein supplementing to the next level without the worry of wasting ingested protein. The addition of **Digest-ALL® AP** helps breakdown long and short chain peptides into smaller, more readily absorbable amino acids for maximum absorption and retention.\*\* **Digest-ALL® AP** helps the body release more amino acids directly into the muscles to increase muscle size, strength and lean body mass.\*\*

#### Added L-Glutamine

**Natural Whey** also contains 1g of L-Glutamine (in addition to naturally occurring L-Glutamic acid) per serving to decrease recovery time following exercise.\*\*

#### Supports Immune Health

Specific characteristics of whey proteins have shown an ability to support immune health.\*\* Whey protein contains high amounts of cysteine and other substrates used in the synthesis of Glutathione.\*\* Glutathione is a major antioxidant and supports immune health.\*\*

**Ingredients:** NAT-PRO OPTIMIZER [Ultrafiltered, Low Temperature Processed Whey Protein Concentrate (milk), Crossflow Microfiltered Whey Protein Isolate (milk), L-Glutamine, Soy Lecithin & Digest-ALL® AP (a vegan enzyme blend)], Cocoa, Natural Chocolate Flavor, TriLEAFia™ (Stevia Leaf Extract, Trehalose, and Monk Fruit Extract), Carrageenan and Salt.

Contains milk and soy.

Contains NO peanut, tree nut, fish, shellfish, wheat, gluten or yeast.

Contains less than 1% soy lecithin.

This product is manufactured in a facility that produces other products that contain egg.

#### Typical Amino Acid Profile Per 25.5g Scoop

|               |        |
|---------------|--------|
| Alanine       | 800mg  |
| Arginine      | 400mg  |
| Aspartic Acid | 1910mg |
| Cysteine      | 220mg  |
| Glutamic Acid | 3000mg |
| L-Glutamine   | 1000mg |
| Glycine       | 400mg  |
| Histidine     | 250mg  |
| Isoleucine    | 1110mg |
| Leucine       | 1630mg |
| Lysine        | 1540mg |
| Methionine    | 330mg  |
| Phenylalanine | 530mg  |
| Proline       | 1070mg |
| Serine        | 910mg  |
| Threonine     | 1040mg |
| Tryptophan    | 380mg  |
| Tyrosine      | 440mg  |
| Valine        | 1040mg |

The Protein Blend in Natural Whey contains the following supportive immunofactors:

48-52% beta-lactoglobulin  
18-22% alpha-lactoglobulin  
20-22% glyco-macro-peptide  
2% immunoglobulins  
0.5-1% lactoferrin

• No MSG

• No Aspartame or Acesulfame K
