

**EVOLVE: VERB 1. TO EMERGE IMPROVED
OR MORE ADVANCED THAN BEFORE**

TROXYPHEN® EVOLVE contains critical ingredients, which help you train harder, exert yourself for longer periods of time and be ready for the next round quicker than ever.

TROXYPHEN® EVOLVE is the foundation onto which you can build a physique and training routine to rival all others.

PERFORMANCE TIPS: TROXYPHEN EVOLVE can be taken anytime before, during or after intense physical activity. Mix EVOLVE with your preferred water amount to achieve desired flavor strength.

MAXIMUM RESULTS: Stack EVOLVE with TROXYPHEN ENGAGE (Pre-Workout Activator) and TROXYPHEN ELITE (T-Boosting & Growth Enhancing Capsules)

TROXYPHEN®

EVOLVE

INTRA-WORKOUT CATALYST

BioEnergy Ribose® amplifies the body's natural process of energy synthesis. It helps reduce the loss of energy and accelerates tissue and energy recovery. Ribose supplementation administered orally works to restore cellular energy lost during training and is a much more effective method of recovery.

CarnoSyn® (beta-alanine) delivers increased muscle working capacity, improved muscle endurance and delayed muscle fatigue during workout. Beta-alanine is a non-essential amino acid that binds to histidine to form muscle carnosine.* Carnosine buffers, or neutralizes, the hydronium ions that lead to muscle fatigue and failure.

AminoBlast® is composed of L-Leucine, L-Isoleucine and L-Valine in the perfect 2:1:1 ratio. Most athletes are aware of the critical role of BCAA's in muscle development and recovery, however not all BCAA's are created equal. **EVOLVE** helps prevent muscle breakdown during rigorous exercise and helps activate mTOR protein to build skeletal muscle.

Restorative Essentials Blend an artfully crafted mix of calcium, magnesium and potassium deliver nutrients that tired muscles are desperately searching for. This shot of key nutrients helps ensure that your body make a rapid recovery and is ready to tackle your next training session in top form.

SUGGESTED USE: Mix two scoops in 6 - 8 oz. of cold water. **TRAINING DAYS:** Consume one serving during training and finish within 30 minutes of completion of activity. **NON-TRAINING DAYS:** Consume one serving over the course of the day.

SUPPLEMENT FACTS

Serving Size: 2 Scoops (10 Grams)
Servings Per Container: 30

Amount Per Serving	% DV
Total Carbohydrate	4 g 1%*
Sugars	4 g **
Calcium (as Calcium Citrate)	50 mg 5%
Magnesium (as Magnesium Citrate)	50 mg 13%
Potassium (as Potassium Citrate)	50 mg 1%
D-Ribose	3,500 mg **
AminoBlast™ (L-Leucine, L-Isoleucine, L-Valine)	3,000 mg **
CarnoSyn® (Beta Alanine)	2,000 mg **

* Percent Daily Values based on a 2,000 calorie diet.

** Daily Value not established.

Other Ingredients: Citric Acid, Natural Flavors, Beta Carotene and Annatto (For Color), and Sucralose. **CONTAINS SOY.**

Manufactured in a facility that processes Milk, Soy, Eggs, Nuts and Wheat.
