

Garden Greens™ Resveratrol™ Liquid combines the healthy benefits of red wine grapes with *Polygonum cuspidatum* root extract to help support your youth and vitality.

Members of the scientific community believe that wine grape skins contain phytonutrients that may demonstrate athletic endurance and anti-aging enhancing properties.

Polygonum cuspidatum is the Latin term for the Chinese herb Hu Zhang, commonly known as Japanese Knotweed. *Polygonum cuspidatum* has been added to the Garden Greens™ Resveratrol™ Liquid formula because it contains some of the same compounds as grape skins to help keep you feeling young and energetic.

Garden Greens™ Resveratrol™ Liquid contains not only 100 mg of trans-Resveratrol, but also a powerful combination of antioxidants that can help improve cardiovascular health and help strengthen the immune system by neutralizing free radicals and preventing cell oxidation. Several university studies have recently been published that reveal the benefits of the antioxidants found in Garden Greens™ Resveratrol™ Liquid.*
