MANUFACTURING

360 Easy-to-Swallow Capsules

Andrew Lessman's NAC-500 delivers 500 mg of **N-Acetyl Cysteine (NAC)**, a unique detoxifying anti-oxidant that is a special active form of the amino acid cysteine. It is the sulfur in cysteine's "thiol" (sulfhydryl) group that imparts **NAC's** unique properties, including its vital role as one of the three critical building blocks of Glutathione, which is our body's most powerful, protective and predominant internal anti-oxidant. Since Glutathione cannot cross cell membranes and cannot enter cells from the outside, it is **NAC's** ability to easily enter cells that permits cells to create the high concentrations of Glutathione they require. **NAC** offers important protection to the brain, heart and lungs, but because of its unique detoxifying role, **NAC** provides targeted protection to the hardworking cells of the liver and kidneys making it a sensible part of any internal cleanse or detoxification program. Unfortunately, **NAC** is not readily available from the diet and it cannot be produced by the body, so if increased levels of **NAC** are desired, then our **NAC-500** is a simple and affordable way of doing so.
