RESVERATROL-50 EGCG-100

50 MG RESVERATROL • 100 MG EGCG
THE ESSENCE OF RED WINE AND GREEN TEA

PROCAPS
LABORATORIES

360 Easy-to-Swallow Capsules

Andrew Lessman's RESVERATROL-50 EGCG-100 provides exceptionally high levels of the two key beneficial molecules from the world's most well-researched healthy beverages: Red Wine and Green Tea. These two naturally-occurring anti-oxidants – **Resveratrol** and Epigallocatechin Gallate (**EGCG**) are the subject of some of the most exciting anti-aging research and are among the world's most powerful naturally-occurring anti-oxidants. For centuries, Red Wine has been considered a traditional healthy beverage, but only in recent years has its benefits been established and the active molecule in Red Wine, **Resveratrol**, been identified. Fortunately, **Resveratrol** has recently become available in a naturally pure, concentrated form making it possible to offer our ultra-high potency **Resveratrol**, with each capsule delivering 50 mg of **Resveratrol** or the equivalent of more than a dozen glasses of Red Wine. **Resveratrol** is the central component in the healthy Mediterranean diet and it is thought to be responsible for the "French Paradox", where the French possess far better heart health than would be expected from a less than ideal diet and lifestyle. Green Tea has a similar traditional history having been considered for centuries a vital component of the healthy Asian diet. Now, Green Tea's wide range of health benefits has been scientifically associated with the powerful anti-oxidant **EGCG**. In fact, both **Resveratrol** and **EGCG** are many times more powerful in anti-oxidant activity than even Vitamin E, and their well-researched benefits have been shown to support the health of a broad range of body tissues, organs and systems, including the cardiovascular system (heart) and nervous system (brain). Now, with our new **Resveratrol-50 EGCG-100** you can enjoy the natural goodness of Mother Nature's two most protective beverages and obtain the remarkable benefits of their most beneficial, powerful molecules without consuming a single drop of alcohol or any caffeine from Green Tea.
