**Andrew Lessman's ALPHA LIPOIC ACID** delivers a special blend of two powerful and related anti-oxidants, Alpha Lipoic Acid (**ALA**) and N-Acetyl Cysteine (**NAC**). ALA has the rare ability to exist in either water- or oil-based environments, which enables ALA to deliver its powerful anti-oxidant benefits virtually anywhere in the body. This universal solubility results in ALA being commonly referred to as the "Universal Anti-Oxidant" and allows it to be particularly effective in providing its anti-oxidant benefits to the cells of our nervous system and brain where its molecular structure permits it to cross the blood-brain barrier. It also protects the vital tissues and structures of the cardiovascular and immune systems, the liver, kidneys and lungs. ALA's anti-oxidant capacity also helps to "recharge" and extend the life of other anti-oxidants in the body, such as Vitamins C and E, Coenzyme Q-10 and Glutathione. Unfortunately, the body makes and maintains very low concentrations of ALA and supplementation can become necessary as a result of the normal changes accompanying aging, stress, illness and even exercise. For additional protection against free radical damage, we include ALA's related molecule, NAC (N-Acetyl Cysteine), which is also a powerful anti-oxidant and an essential building block in the creation of Glutathione Peroxidase, perhaps the body's most powerful anti-oxidant. The human body relies on its own extremely effective internal anti-oxidant systems for protection, and ALA and NAC offer both internal and external anti-oxidant support to combat the daily onslaught of damaging free radicals. No modern anti-oxidant regimen is complete without the addition of the Universal Anti-Oxidant (ALA) and NAC. We then blend our Alpha Lipoic Acid and N-Acetyl Cysteine with the naturally green, nutrient- and chlorophyll-rich anti-oxidant benefits of Organic Wheat Grass and Organic Barley Grass.
