

Reziva is a concentrated extract made from red wine grapes grown in the vineyards of southern France. Unlike other resveratrol supplements from *Polygonum Cuspidatum*, Reziva contains trans-resveratrol, oligomeric proanthocyanidins, anthocyanins and wine polyphenols - with no additives, GMO or irradiation. It's pure, just like real red wine. Reziva promotes longevity, weight and glucose control, cardiac health and helps to support good eyesight and macular function.*
