WARNINGS: Accidental overdose of iron-containing
products is a leading cause of fatal poisoning in
children under 6. Keep this product out of reach of
children. In case of accidental overdose, call a doctor
or poison control center immediately.

An anemic condition should be treated under the
advice and supervision of a physician.

Since oral iron products interfere with absorption of
oral tetracycline antibiotics, these products should
not be taken within 2 hours of each other.

Iron-containing supplements may occasionally cause
bowel effects such as constipation or diarrhea. If you
are pregnant or nursing a baby, seek the advice of a
health professional before using this product.
