**Andrew Lessman's MILLION ORAC** derives its name from the **ORAC** test, which measures the anti-oxidant power of natural ingredients and foods. The **ORAC** (Oxygen Radical Absorbance Capacity) test was developed to objectively assess anti-oxidant power. The higher the ORAC value the greater the anti-oxidant power, and research indicates that consumption of foods with high ORAC values can significantly increase the body's anti-oxidant activity. *Each specially selected ingredient in Million ORAC has an ORAC value in excess of 1,000,000 Units per 100 grams!* Our Million ORAC formula combines the anti-oxidant protection and health benefits from standardized extracts of the most powerful plant-based anti-oxidants we were able to locate, test and verify. These ingredients are exceptionally powerful and deliver high concentrations of extremely protective anti-oxidants that target and neutralize a broad range of damaging free radicals. **Million ORAC** provides a wide array of natural anti-oxidants, including the extremely powerful anti-oxidant polyphenols present in Green and White Teas, which we further standardize for EGCG. We also include the well-established benefits of Resveratrol, Apple Polyphenols, Grape Seed and Blueberry Extracts, along with Turmeric (Curcumin) and Pine Bark Extracts. All of these ingredients have been tested and confirmed at the remarkable level of more than 1,000,000 ORAC Units per 100 grams. Clearly, Mother Nature provides us powerful protection from her healthiest plants and foods and our **Million ORAC** is a scientifically-validated source of those most powerfully protective natural compounds.
