Discussion: Omega 3 EFA Complex helps to support a healthy heart and maintain already normal cholesterol levels.

Nature's Life® Omega 3 EFA Complex is a natural source of Fatty Acids in the Omega 3 family. From deep, cold water fish, their natural body oils are extracted in a unique process that ensures the delicate nutritive value of the essential fatty acids is retained. The oils are then hermetically sealed in softgel capsules, with a naturally opaque carob coating to protect the oils from the damaging effects of ultraviolet light.

Nature's Life guarantees that NO ingredients other than those listed on this label have been added to this product. This quality Nature's Life® product meets our Quality Assurance Procedures and Good Manufacturing Practices.

Quality You Can Trust.
