*In a double-blind, randomized, placebo-controlled, cross-over study, 25 subjects exercised on a treadmill on two occasions. On one occasion the subjects took GNC Thermogenic Blend before exercise and on the second occasion, they took a placebo. When the subjects took GNC Thermogenic Blend, they burned three times more calories before, 3% more calories during and 12 times more calories after exercise compared to when they took the placebo. Each serving supplies 200mg of caffeine.
