Black Cumin Seed Oil

60 softgels

Item Catalog Number: 01709

As we age, a balanced **immune** and **inflammatory** response becomes critical to guarding our health.⁶⁵⁻⁶⁹ Research has shown **Black Cumin Seed Oil** to be particularly effective.⁷⁰⁻⁷⁸

Scientists have determined that **black cumin seeds** contain a broad spectrum of active compounds.⁷⁰ Combined, these compounds provide powerful and wide-ranging **immune** support and promote healthy **inflammatory** response.^{70,71}

A number of biological factors contribute to the body's normal inflammatory activity, including cell-signaling chemicals and hormone-like messengers.^{77,78} In a series of scientific studies, **Black Cumin Seed Oil** has been shown to support the normal effectiveness of these inflammatory factors.^{70,71}

Also, an aging, healthy immune system needs to orchestrate the activity of macrophages and helper T-cells. **Black Cumin Seed Oil** was also shown to support the optimal function of this vitally important defensive activity.⁷⁹⁻⁸¹

By acting on both immune factors and inflammatory factors, **Black Cumin Seed Oil** supports a healthy immune system — which is increasingly important as we age — and facilitates a **healthy inflammatory response!**
