Gluten Free, Vegetarian, Suitable for Low Lactose Diet.

Why use a probiotic?

Probiotics are beneficial bacteria found naturally in the intestine. Using probiotic supplements can help replenish those bacteria, which may be depleted from stress, poor eating habits or antibiotic use. Probiotics promote healthy digestion, support natural resistance and reduce stomach bloating and discomfort.

Why use Ultra Probiotic Complex 25 with Weight Management Support?

This product features a blend of probiotics, including a Lactobacillus strain uniquely designed to impact fat absorption.* It also includes a powerful citrus blend, which may support body composition and fat metabolism and provide antioxidant benefits.* The enclosed reduced-calorie diet and exercise plan helps you support your weight management goals.

*Results are based on in vitro laboratory testing combining Lactobacillus reuteri JBD301 with fat. The JBD301 probiotic strain demonstrated significant free fatty acid uptake vs. a common Lactobacillus control, which may reduce availability of fat for absorption.

*A randomized, double-blind, placebo-controlled clinical study consisting of 95 overweight healthy participants compared the use of Citri-Sculpt™ Blend to a placebo, both in conjunction with a calorie restricted diet and physical activity plan. After 12 weeks, subjects receiving Citri-Sculpt™ Blend had significantly greater improvements in body composition, antioxidant status and serum free fatty acids.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
