Why use a probiotic?

Probiotics are beneficial bacteria found naturally in the intestine. Using probiotic supplements can help replenish those bacteria, which may be depleted from stress, poor eating habits or antibiotic use. Probiotics promote healthy digestion, support natural resistance and reduce stomach bloating and discomfort.

Why use a sport probiotic?

The first probiotic designed just for athletes, our Ultra Probiotic Complex 25 Sport includes an advanced digestive enzyme blend for greater protein absorption and clinically researched ancient peat and apple extract, which has been shown to increase circulating ATP, a chemical energy source.*
