CALCIUM-MAGNESIUM INTENSIVE CARE™

**GENTLE, ULTRA-SOLUBLE CALCIUM
PLUS MAGNESIUM, VITAMIN D3 AND BORON**

450 Easy-to-Swallow Capsules

Andrew Lessman's CALCIUM-MAGNESIUM INTENSIVE CARE is a gentle, high potency formula designed to address the needs of virtually all individuals, particularly women, to consume extra Calcium, Magnesium, and Vitamin D3. This ultra-mild, easy-to-swallow and easy-to-absorb formula is ideal for those who have challenges with large, ordinary calcium tablets. Calcium and Magnesium are two of the most abundant minerals on our planet, yet they are sadly lacking from our diet. One must also consider that without adequate Vitamin D3, we cannot absorb what little Calcium we manage to consume and sadly, Vitamin D3 is just as scarce as Calcium and Magnesium. In fact, inadequate Calcium, Magnesium and Vitamin D3 intake poses an enormous threat to the long-term health of our bones and bodies in this country. Making matters worse is the fact that ordinary Calcium is very hard to absorb from typical supplements, particularly those large, rock-like calcium tablets. At ProCaps, we overcome this problem by using only highly soluble, ultra-fine powdered forms of Calcium in small, easy-to-swallow capsules that are guaranteed gentle even to sensitive stomachs. This eliminates the difficult swallowing, chalky taste, poor absorption and stomach upset that make ordinary calcium supplements so unpleasant. **Calcium-Magnesium Intensive Care** is designed to be a pleasant and effective way to provide the Calcium and Magnesium we need without the problems of ordinary supplements. Because of its ultra-fine powder and super-soluble ingredients, our **Calcium-Magnesium Intensive Care** remains mild despite delivering 500 mg of Calcium, 200 mg of Magnesium, 1,000 mcg of Boron and 400 IU of Vitamin D3 in two small, easy-to-swallow capsules. As we get older, the Calcium and Magnesium we require becomes more difficult to absorb and tolerate, but **Calcium-Magnesium Intensive Care** makes it easy to enjoy the Calcium, Magnesium and Vitamin D3 required for a healthy skeleton and body while always remaining gentle and mild - even to sensitive stomachs.
