MUSCLE INFUSION is an advanced protein formula supplying your muscles with 25 grams of high-quality protein per serving. Rather than just focusing on a single protein source **MUSCLE INFUSION** is balanced and packed with six different proteins. These come in fast absorbing whey proteins as well as slower digesting milk and egg protein fractions. Together they provide a fast yet sustained supply to your muscles.†

MUSCLE INFUSION is high in essential amino acids which are the true building blocks of muscle. It's a great source of glutamine and it delivers over 5 grams of pure BCAAs per serving. Each scoop is also fortified with a comprehensive vitamin and mineral spectrum. Special protein digesting enzymes have been added to help ensure a most efficient turn-over from nutritional protein to muscle protein.†

To support your quest for lean muscles, **MUSCLE INFUSION** is very low in fats and carbohydrates. It tastes absolutely delicious and mixes easily with a spoon.†
