

EPIQ™ is a line of powerful, effective, and guaranteed clean supplements formulated for elite athletes who demand the highest quality for EPIQ™ performance.

EPIQ™ Guaranteed Supplements are:

- Free of banned substances
- Free of artificial colors or dyes
- Free of harmful impurities
- Free of undeclared ingredients
- Developed with scientifically researched key ingredients
- Manufactured according to current Good Manufacturing Practices (cGMP) standards, as is required for all dietary supplements

EPIQ™ GAINER – PURE ISOLATE CLEAN GAINER MATRIX

If you're an athlete putting in hours of hardcore training day in and day out, you know how hard it is to keep your calorie intake high enough to support fast gains in muscle size and strength. But size is king! You want to be at the top of your game – and putting on lean muscle will help give you an undeniable advantage over the competition in any power sport, and also help you look bigger and harder.

Adding a weight gainer to your supplement arsenal is a great solution – mass-gainer shakes are easy to prepare, transport, and consume, and are perfect for adding extra calories between meals and after workouts. The problem with most regular weight-gainer formulas on the market is that they focus on calories above all else while skimping on ingredients, often sacrificing quality protein and carb sources to pack as many calories into the bottle as possible – in the form of fat, cheap sugar, and concentrate-grade or lower quality protein sources.

Now, the game has changed. Introducing EPIQ™ GAINER – the 100% isolate clean gainer that is designed to help you increase muscle size, strength, and power, and also speed recovery from training, without all the extra sugar and fat. *

Why is 100% Isolate Protein So Important?

EPIQ™ GAINER uses only isolate proteins. Why isolates? It's simple. The isolate proteins in EPIQ™ GAINER are highly bioavailable proteins that are easily digested and utilized by the body. Lower quality proteins contain more fat and carbs, while isolates are lower in fat and lactose, so you won't have to worry about consuming additional junk calories on your way to clean muscle gains. *

The EPIQ™ GAINER Pure Isolate Advantage

More Protein per Gram	Less Fat	Fewer Carbs	Less Lactose	High Biological Value
--------------------------	----------	-------------	--------------	--------------------------

Quality Carbs to Fuel Workouts & Recovery

EPIQ™ GAINER contains a unique Super Carb Blend that was designed to combat post-exercise catabolism by supporting glycogen synthesis, to fuel growth, and to minimize the breakdown of muscle protein. This powerful blend provides simple carbs that, when taken post-workout, spike insulin, which quickly shuttles creatine, amino acids, and other nutrients into the muscle. It also delivers slow-burning complex carbs that help keep the body in an anabolic state. *

Get Clean – Get Powerful!

Coupled with 100% isolate proteins and the Super Carb Blend are powerful ingredients to drive muscle strength and muscle growth. Each serving contains a massive 10g of pure, clean creatine – the most researched of all musclebuilding ingredients. Also contains a digestive enzyme matrix.

And like all EPIQ™ supplements, EPIQ™ GAINER is guaranteed banned substance free, and contains no artificial colors or dyes.

What Makes the Formula EPIQ™?

- Uses 100% isolate proteins, with no artificial colors or dyes.
- With 60g of protein per serving, EPIQ™ GAINER delivers quality calories and protein while being low in fat.
- The Super Carb Blend features maltodextrin, isomaltulose, cluster dextrin, Modcarb™, brown rice syrup solids, and waxy maize for recovery from intense training and rapid replenishment of glycogen stores. *
- The Performance & Recovery Blend further enhances recovery with 10g of creatine per serving. *
